[www.charitylearning.org](http://www.charitylearning.org)

We've created a range of elearning courses as part of our new Charity Essentials series. While some topics like trusteeship, governance, fundraising and volunteering are naturally charity-specific, others such as leadership, coaching, and mentoring have been carefully designed to reflect the charity context, avoiding corporate jargon. All providing staff and volunteers with clear, relevant learning on key topics that matter to the sector.

**Speak to a member of our team for more information and ideas on how to make the most of Charity Essentials in your organisation.**
