

Skills for the Future: What QA Is Building Today

Megan Sutton

Portfolio Director – Leadership and Business
& TAP Training Skills

The Skills That Matter Most Right Now

Leadership skills - Steady leadership in change

Technical confidence – feeling able with new tools

Human skills - Human connection and good judgement

[#bemorefin](#)

How We're Supporting These Skills

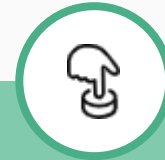

Making Transformation & AI Manageable

Practical application to demystify complex changes.

Supporting Leaders

Navigating uncertainty with confidence and strategic foresight.

Accessible & Actionable Learning

Keeping knowledge readily available for immediate use and impact.

When Skills Shift, Everything Shifts

“It took hearing a stranger comment on how hard I was to reach for me to realise just how much pressure had been building in the background.”

Looking Ahead to June

- Leadership & human skills in a rapidly changing world
- How QA can support CLC members
